ABOUT THIS PUBLICATION

Photographs are licensed stock imagery used for illustration and do not depict QD projects. Technical drawings are schematic.

Company Introduction

BUILT ON TWO DECADES OF HANDS-ON EXPERIENCE

Quantum Dynamics aims to become a world-class construction company — with its brand as the forerunner, management as the foundation, people at the core, innovation as the driving force, robust systems as the guarantee, information as the breakthrough and culture as the guide.

> *With the blessings of Almighty Allah, QD is moving swiftly towards a splendid future through intelligence, courage and honesty.*

Since its establishment, the company has grown successfully and remains driven by excellence across the oil, chemical and petrochemical, power, cement, fertilizer and infrastructure sectors.

Even before QD was established, its founders had been involved in equipment installation, fabrication, and the erection of piping networks, tanks and steel structures for two decades.

QD enjoys good relations and cooperation with project owners, the result of excellent coordination in every aspect — from civil works and equipment configuration to realising the best return on project investment.

QD at a Glance

PEOPLE, QUALITY AND TIMELY DELIVERY

2 DECADES

Founders' experience in installation, fabrication and erection

400+

Trained workers and technicians

3 ZEROS

Zero injury · Zero accident · Zero life loss

5 SECTORS

Oil & gas to food industries

Our team

QD's team of executives and engineers is highly qualified, energetic and richly experienced in the construction industry. QD also has a team of more than 400 workers and technicians who have undergone specialised training in design, planning, fabrication, erection, insulation, sandblasting and painting.

Projects of national significance

Timely completion of every ongoing project always receives our highest priority. QD's activities have also been extended to diversified, large-scale projects of national significance — especially cement, fibre, chemical, oil refinery and power generation plants — backed by complete technical know-how.

Quality at every stage

The company is well equipped with modern tools and equipment, and takes special pride in its latest quality control facilities, which monitor, record and maintain the highest quality standards to the entire satisfaction of our valued clients. Emphasis on quality at every stage of design, planning and installation is the hallmark of our organisation, and has earned our team an enviable reputation in both the public and private sectors.

Our Capabilities

ENGINEERING, CONSTRUCTION & MANUFACTURING

QD's main business is general contracting for mechanical and civil works, and equipment manufacturing. The company has successful experience in building construction, equipment installation and erection, fabrication and welding.

01 General Contracting

- Mechanical works
- Civil works
- Building construction

02 Manufacturing

- Equipment manufacturing
- Local manufacturing of large equipment
- On-site manufacturing
- Manufacturing and installation of construction materials

03 Installation & Erection

- Equipment installation and erection
- Steel structures
- Piping networks and tanks
- Trackless cranes

04 Pipelines

- Cross-country pipelines

Testing & Commissioning

HYDRO-TESTING | PRE-COMMISSIONING | COMMISSIONING | SHUTDOWNS | DISMANTLING | INSULATION

SPECIALISED TRADES

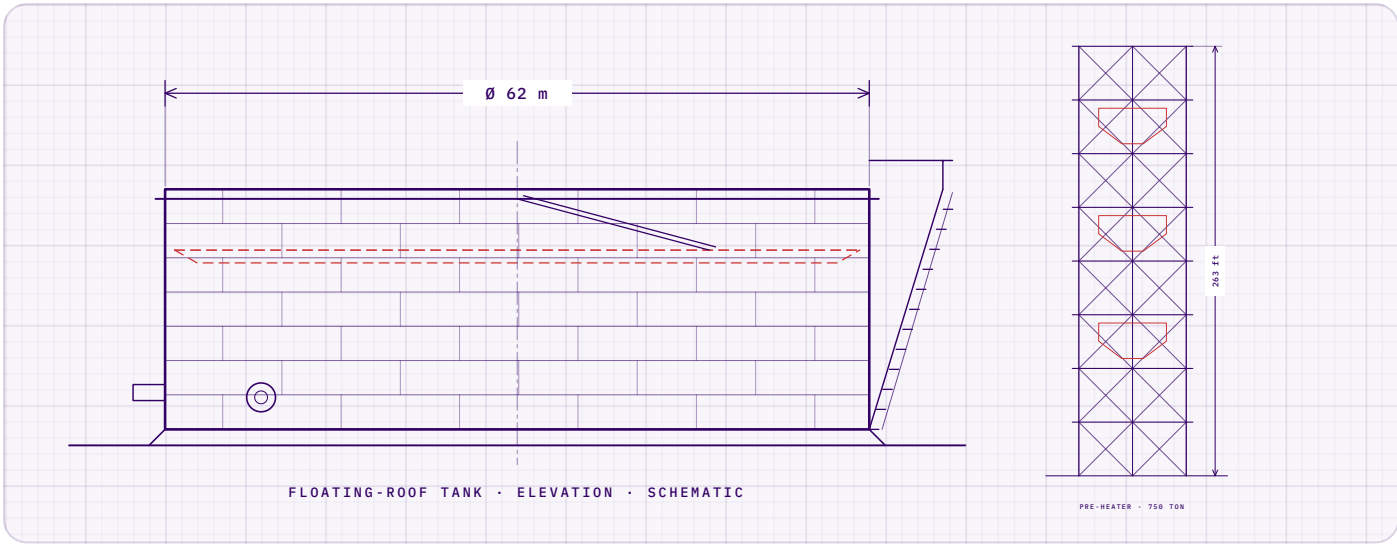

400+ trained workers & technicians

Design	Planning	Fabrication	Welding	Erection	Insulation	Sandblasting	Painting

Technical Expertise

EQUIPMENT, PIPING, TANKS & STRUCTURES

QD engineers have extensive experience in equipment installation, fabrication, erection, sandblasting and painting across many projects.

06 NOS.
Crude oil storage tanks
Floating-roof type, 62 m diameter

175 MW
Gas turbine
Installation

750 TON
Pre-heater steel structure
263 ft height

135×52 M
Storage shed
135 m long × 52 m wide

70 TON
Boiler (H.T. boiler)
70 ton, 40 TPD

08 NOS.
Cooling water storage tanks
Fabrication and erection

SYSTEMS FABRICATED, ERECTED & INSTALLED

- MS storage tanks
- Oil storage tanks
- Pipe rack structures
- Process piping
- Nitrogen plant piping
- Utility piping
- Pumps
- Chillers
- Cooling towers
- Air handling units
- Wastewater treatment plant
- Turbines
- Diesel power generators
- Generators
- Fire-fighting systems
- Steel rib / arch structures

Business Sectors

FIVE SECTORS WE SERVE

Experience spanning oil refineries, gas fields, chemical and fibre plants, power generation, cement, fertilizer and infrastructure.

01
Oil & Gas
Attock Oil Refinery
Pak-Arab Refinery
Zamzama Gas Field
Mazari Oil Field
Khaur Oil & Gas Battery

02
Chemical & Petrochemical
ICI Soda Ash Works
ICI Polyester Plant
Dewan Salman Acrylic Plant
44 KTPA Polyester Staple Fibre

03
Power & Cement
Thermal Power Station, Muzaffargarh
Doosan Power Plant, Daharki
D.G. Cement
Fauji Cement

04
Fertilizer & Infrastructure
FFCL Mukhtar Garh
FFBL Port Qasim
Engro Daharki
Defence Housing Scheme Phase-2

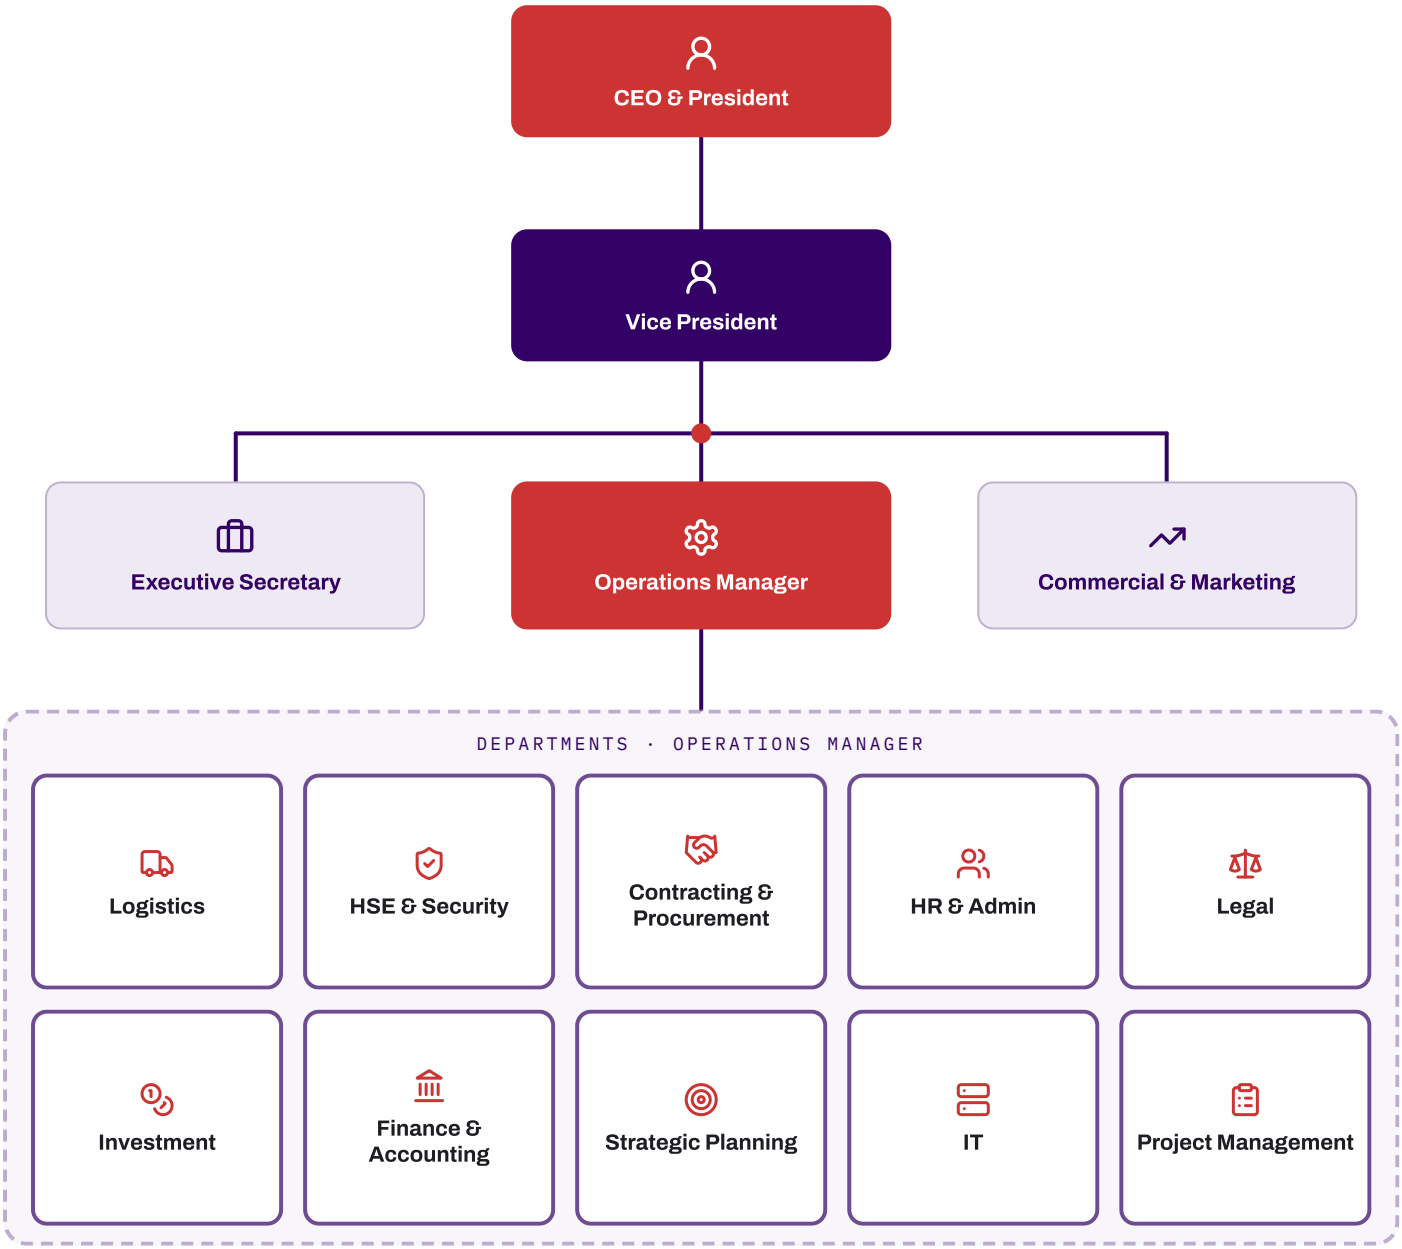

05
Food Industries
Listed among QD's five business sectors.

Organization Structure

HOW WE ARE ORGANISED

QD is led by its CEO & President and a Vice President, with an Executive Secretary, an Operations Manager and Commercial & Marketing reporting to them — and ten departments working under the Operations Manager.

Leadership

The CEO & President and Vice President set direction and oversee every function.

Management

Executive Secretary, Operations Manager and Commercial & Marketing report to the Vice President.

Departments

Ten departments under the Operations Manager cover delivery and support.

Core Values

WHAT WE STAND FOR

01
Trust

02
Honesty

03
Integrity

04
Courage

05
Respect and dignity

06
Prosperity for stakeholders, including employees

OUR VALUES IN PRACTICE

Professionalism, Ethics and Integrity

We believe in professional, honest and ethical behaviour in all our activities, and that following the course of highest integrity will establish and maintain the highest professional and personal standards.

Commitment and Teamwork

We honour the commitments made to our internal and external clients and strive to work effectively as a team. We believe that teams with an appropriate diversity of skills and approaches can achieve a level of synergy that individuals alone cannot.

Candid and Open Environment

We encourage an environment where all communication is candid and courteous, and provides adequate information — enabling us to do our jobs more effectively and contributing to the quality of our decision-making.

ILLUSTRATIVE IMAGE

Our Vision

To become a world-class engineering, manufacturing and construction company, operating nationally.

ILLUSTRATIVE IMAGE

Our Mission

To provide our customers with quality, cost-effective and reliable solutions as an EPC contractor at home, and as a manufacturer of plant and equipment in the region.

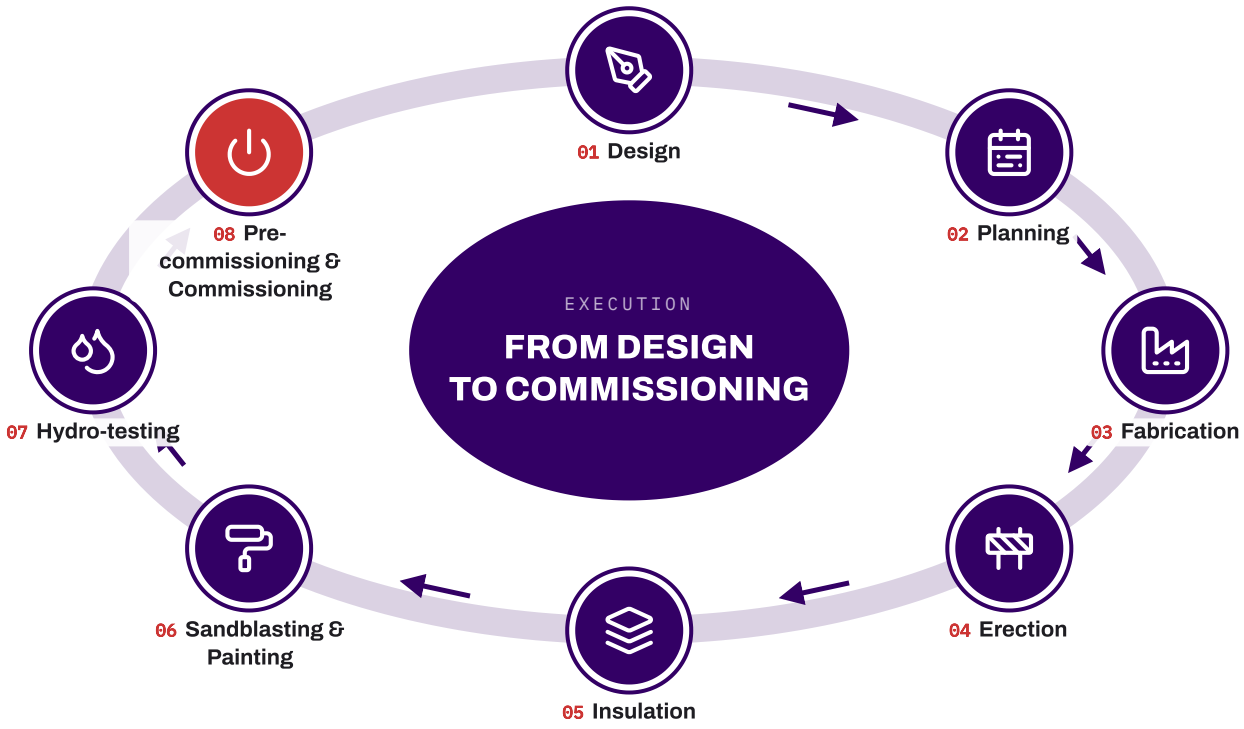

Our Purpose

To bring prosperity and well-being to our stakeholders and to society at large by adding value through engineering, technology and management.

Project Management & QHSE

SCOPE, BUDGET, QUALITY & SAFETY

The QD team has a track record of successfully managing projects within the defined scope, budget, quality and safety parameters. Over the years, the management team has evolved and implemented various project management and control systems, enabling a sharp focus on cost and schedule control.

SAFETY PHILOSOPHY

THE THREE ZEROS

QD ensures the proper use of personal protective equipment (PPE) so that the risks encountered in construction are minimised.

0 Zero Injury

0 Zero Accident

0 Zero Life Loss

Quality control

Quality control facilities monitor, record and maintain quality standards at every stage of design, planning and installation.

Owner coordination

QD enjoys good relations and cooperation with project owners, the result of excellent coordination in every aspect — from civil works and equipment configuration to realising the best return on project investment.

Experience of Key Personnel

FERTILIZER & POWER

Scaffolding, sandblasting, modification and plant projects for fertilizer and power producers, from the experience record of QD's key personnel.

NO.	CLIENT	PROJECT	LOCATION
01	FFCL	Scaffolding — annual 3-year project	Mukhtar Garh, Sadiqabad
02	FFCL	Annual sandblasting	Mukhtar Garh, Sadiqabad
03	FFCL	Purlin sheets project	Mukhtar Garh, Sadiqabad
04	FFCL	Annual Scaffolding-19 project	Mukhtar Garh, Sadiqabad
05	FFCL	TA-19 scaffolding project	Mukhtar Garh, Sadiqabad
06	FFCL	NP plant agitators — TA-19 project	Mukhtar Garh, Sadiqabad
07	FFCL	TA-19 modification jobs	Mukhtar Garh, Sadiqabad
08	FFCL	TA-19 NG drainage facility	Mukhtar Garh, Sadiqabad
09	FFCL	Execution of O&U TA-19 MOCs	Mukhtar Garh, Sadiqabad
10	FFCL	MTM cyclones — TA-19 job	Mukhtar Garh, Sadiqabad
11	FFCL	Suction ducts — TA-19 job	Mukhtar Garh, Sadiqabad
12	FFCL	Knock-out drum project	Mukhtar Garh, Sadiqabad
13	FFCL	LCO_2 plant	Mukhtar Garh, Sadiqabad
14	FFBL	Scaffolding annual project	Port Qasim, Karachi
15	FPCDL	Doosan Power Plant	Daharki
16		Engro	Daharki

Project names and locations as recorded in the company's experience list. Entries repeated in the source list are shown once.

Experience by Sector

TRACK RECORD, CONTINUED

43 ENTRIES

Oil & Gas

17	Attock Oil Refinery	Rawalpindi
18	Pak-Arab Refinery project	Pakistan
19	BHP Zamzama Gas Field	Dadu
20	OMV Kadanwari	Pakistan
21	OMV OMV Pakistan	Pakistan
22	Mazari Oil Field Upgrade Project	Matli
23	POL Khaur Oil & Gas Battery, Pakistan Oilfields Ltd.	Pakistan

Chemical, Polyester & Fibre

24	ICI ICI Pakistan	Pakistan
25	ICI ICI Polyester Plant	Sheikhupura
26	ICI ICI Soda Ash Works	Khewra
27	44 KTPA Polyester Staple Fibre Project	Pakistan
28	Dewan Salman Acrylic Plant	Hattar
29	Dewan Salman Polyester	Hattar
30	Dewan Salman Polyester Plant No. 1	Hattar
31	Dewan Salman Polyester Unit No. 2	Hattar

Power & Cement

32	Thermal Power Station, Units 05 & 06	Muzaffargarh
33	Chakwal Cement Project	Chakwal
34	D.G. Cement	Chakwal
35	Fauji Cement Plant	Fateh Jang

Infrastructure & Industrial

36	Defence Housing Scheme Phase-2	Pakistan
37	Frontier Works Organization	Pakistan
38	National Development Complex	Pakistan
39	Heavy Mechanical Complex	Taxila
40	Shashi Pipe Factory	Karachi
41	PAP Plant	Near Fateh Jang
42	Paste Plant	Islamabad
43	Berini	—
